

# 1. **RELEASE OVERVIEW**

---

LOOPS is a multiple-paradigm programming system designed to be used in a variety of artificial intelligence applications. LOOPS requires the Medley Release of Lisp.

---

## 1.1 System Configuration

---

You need the following minimum configuration to run Xerox LOOPS:

1186 Workstation	1108 Workstation
40 megabyte disk drive	40-42 megabyte disk drive
2 megabyte memory	2 megabyte memory

---

## 1.2 What's Included in This Release

---

Xerox LOOPS includes the following items:

- Software on floppy disks.

See Chapter 2, Changes from Koto LOOPS, for how the Lyric/Medley Release of LOOPS is different from the Koto Release.

- Documentation in binders.

See Chapter 3, Release Documentation, for details of release documentation.
