1. RELEASE OVERVIEW

LOOPS is a multiple-paradigm programming system designed to be used in a variety of artificial intelligence applications. LOOPS requires the Medley Release of Lisp.

1.1 System Configuration

You need the following minimum configuration to run Xerox LOOPS:

1186 Workstation	1108 Workstation
40 megabyte disk drive	40-42 megabyte disk drive
2 megabyte memory	2 megabyte memory

1.2 What's Included in This Release

Xerox LOOPS includes the following items:

*   Software on floppy disks.

    See Chapter 2, Changes from Koto LOOPS, for how the Lyric/Medley Release of LOOPS is different from the Koto Release.

*   Documentation in binders.

    See Chapter 3, Release Documentation, for details of release documentation.
