CURSOR TEST REPORT
Filed as {ERIS}<LISPCORE>TEST>DISPLAY>CURSOR.LOG
By Peter Reidy

Cursor test has verified the ability to create and change the cursor and found all built-in cursors and their associated bitmaps (IRM p. 30.15) to be of the correct type.
ARs filed, with their status as of 30 March are:
8202 CURSORWIDTH and CURSORHEIGHT unbound
        New/Documentation
8204 Cursor > 16 X 16 causes keyboard/mouse control to disappear
        Fixed
8212 TEdit restores DEFAULTCURSOR unconditionally
        New/Design - UI

Associated files:
{ERINYES}<TEST>LISP>LYRIC>PLANS>
        CURSOR.PLAN
{ERIS}<LISPCORE>TEST>DISPLAY>
        CURSOR.PROC: instructions for manual test, particularly test of AR 8212
        CURSORTEST.TEST: a do-test file for automatic test (WARNING: this tests AR 8204, which causes a crash in 11 March sysout; do not try it in this version)
        CURSORTEST.SOURCE: code needed by CURSOR.PROC and CURSORTEST.TEST (which loads it in its :before section)
